

Over 500 Metal and Pure Element Products in Stock for Immediate Delivery

ABOUT US

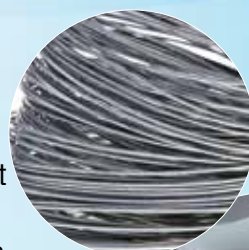

Beantown Chemical Corporation (BTC) is a privately-held company founded in 2013 that manufactures and distributes a line of specialty materials, including metals, inorganics, organometallics and organics. The company's corporate headquarters and main distribution center is located in Hudson, NH.

BTC currently offers over 10,000 products that are sold for research and development purposes. Products are available in pre-packaged catalog sizes, and in semi-bulk and bulk quantities. To further meet our customers' needs, we also offer custom synthesis and special packaging services.

METALS AND PURE ELEMENTS

The following table lists the standard forms we offer for our pure element product line. Further details on any of these products can be found by using the "Shop all Categories" option located on the homepage of our website (www.beantownchem.com). You will also be able to see selling sizes, pricing, and product availability.

If you do not see the exact product you need, you can request a quote on our website, email us at metals@beantownchem.com, or call us at 1-844-502-5152. We are able to custom fabricate most products to meet your specific needs. We are also able to offer discounts for bulk quantity purchases.

HIGH PURITY INORGANICS

BTC also offers a full line of high purity inorganics for use in various applications. This product line includes many oxides, mixed metal oxides, carbonates, nitrates, halides and sulfates. Many of these products are packaged in ampules under argon to keep oxygen and moisture in the low ppm levels. Our standard catalog products are listed on our website. We can also provide quotes on larger quantities and custom specifications. If you do not see the exact product you need, you can request a quote on our website, email us at metals@beantownchem.com, or call us at 1-844-502-5152.
